This request includes funding for ongoing rate development for expanded regions, fifteen (15) FTE to administer the additional managed care population, ongoing MMIS programming costs, and enrollment broker costs. One-time funds are also requested for fee-for-service claims runout. Claims Run-Out: Due to the lag in the time between date of service and the date a provider bill for services, the state estimates it will pay \$109 million in fee-for-service (FFS) claims for the population moving to managed care for the period prior to managed care enrollment. The bulk of these costs will be paid within 6 months; however, payouts could continue up to 12 months.

An increase is needed in the pharmacy program due to increased utilization and increased cost of specialty drugs. An estimated Specialty PMPM rate increase of 19.275% is expected in FY17. This is due to the higher proportion of persons with disabilities in Medicaid and the fact that there are very few generic options available for specialty drugs. Specialty drugs often target rare conditions, have limited availability and relatively high costs, require complicated regimens, and may involve unconventional manufacturing processes.

**Section 11.435**

Budget Book Page 192

Part of the Medicare Prescription Drug Act requires States to pay Medicare a portion of the cost of Part D drugs attributable to what would have been paid for by the State absent the Part D drug benefit.

The Medicare Prescription Drug Improvement and Modernization Act (MMA) of 2003 required that all individuals who are eligible for both Medicare and MO HealthNet receive their prescription drugs through the Medicare Part D program. This change resulted in a significant shift in benefits for elderly and disabled dual eligible participants because they receive their drugs through a prescription drug plan (PDP) rather than through the state's MO HealthNet Program.

The federal government refers to this payment as the "Phased-down State Contribution", whereas the states more appropriately refer to the payment as the "Clawback". This Clawback payment is, in effect, a funding source for the Medicare Part D program. In theory, it uses the General Revenue that the state would have paid for the MO HealthNet pharmacy benefit for funding the Part D program.

States are required to make a monthly payment to the federal government to, in effect, redirect the money the states would have spent on providing prescription drugs to participants in the MO HealthNet program. The Clawback consist of a monthly calculation based on the combination of (a) the state's per capita spending on prescription drugs in 2003, (b) the state's federal Medicaid match rate, (c) the number of dual eligibles residing in the state, and (d) a "phase-down percentage" of the state savings to be returned to the federal government beginning with 90% in 2006 and phasing down to 75% in 2015.

**Current Flexibility:** Not more than ten percent (10%) flexibility is allowed between this subsection and sections 11.410, 11.455, 11.460, 11.470, 11.485, 11.490, 11.505, 11.510, 11.550, 11.555, and 11.600

Funding needed for an estimated 4% rate increase beginning in January 2017. The Medicare Prescription Drugs Act requires states to pay Medicare a portion of the cost of Part D drugs attributed to what would have been paid for by the state without the Part D drug benefit. The Clawback rate is set by CMS in January of each year. This 4% increase represents an increase for January through April 2017. The Clawback payment is made to the federal government once per month.

MO HealthNet Division - Missouri Rx Plan  
Section 11.435**

Budget Book Page 206

The Missouri Rx Plan provides certain pharmaceutical benefits to certain low-income elderly and disabled residents of the state, facilitates coordination of benefits between the Missouri Rx plan and the federal Medicare Part D drug benefit program.

SB 539 (2005) established the MO Rx Plan. The purpose of this program is to coordinate pharmaceutical benefits between the MO Rx plan and the Federal Medicare Part D drug program for Medicare/Medicaid full dual eligibles, partial duals and other elderly and disable Missourians below 200% of the Federal Poverty Level. The MO Rx Plan pays 50% of members' out of pocket costs remaining after their Medicare Prescription Drug Plan pays. MO Rx pays for 50% of the deductible, 50% of the co-pays before the coverage gap, 50% of the coverage gap and 50% of the co-pays catastrophic coverage.

The program will sunset on August 28, 2014, legislation must be enacted before that time to continue the program.

**MO HealthNet Division - Pharmacy Federal Reimbursement Allowance (PFRA) Payments**  
**Section 11.440**

Budget Book Page 220

This core funds payments for pharmacy services for Title XIX participants. Funds from this core are used to provide enhanced dispensing fee payment rates using the Pharmacy Federal Reimbursement Allowance under the Title XIX of the Social Security Act as General Revenue equivalent. Pharmacies are assessed a provider tax for the privilege of doing business in the state. The assessment is a general revenue equivalent, and when used to make valid Medicaid payments, earns federal dollars. These earnings fund this PFRA program appropriation and the Pharmacy appropriation.

The Medicare Buy-In program allows states to enroll certain groups of eligible individuals in the Medicare Part A (hospital insurance) and Part B (medical insurance) programs and pay their premiums. This allows the state to realize cost savings through Medicare paying the majority of medical costs before Medicaid reimburses for the services. This request funds anticipated Part A and Part B premium increases.

Federal Medicaid regulation allows state and local governmental units to transfer to the Medicaid agency the non-federal share of Medicaid payments. The amounts transferred are used as the state match to earn federal participation. This funding maximizes eligible state resources for federal Medicaid funds, utilizing current state and local funding sources as match for services.

For the purpose of paying publicly funding long-term care services and support contracts and funding supplemental payments for care in nursing facilities or other long term care services under the nursing facility upper payment limit.

Establishing a partnership between privately owned long-term care facilities, and publicly operated long-term care related services allows Missouri to generate new federal revenue by having private nursing homes assume financial responsibility for publicly funded long term care services and supports. This appropriation allows for an offset of general revenue, increase reimbursement to providers of long term care and supports, as well as assist local governments to develop and maintain its long-term service delivery system.

Federal law requires rates to be actuarially sound. Funding is needed for a contracted 7.7% cost increase of the existing NEMT contract. NEMT services are provided for MO HealthNet participants who do not have access to free transportation to scheduled MO HealthNet-covered services. The state contracts with a statewide broker and pays monthly capitation payments for each NEMT participant based on eligibility group and which of the four regions of the state the participant resides.

These transfer sections allow funding to be transferred between General Revenue and the Ambulance Services Reimbursement Allowance Fund. Federal Medicaid regulation requires states to establish they have sufficient state dollars available in order to draw down federal dollars. These transfers allow the state to draw down federal match for funds paid through the Ambulance Federal Allowance Reimbursement Program. The program is in the Rehab and Specialty Services appropriation.

This request includes funding for ongoing rate development for expanded regions, fifteen (15) FTE to administer the additional managed care population, ongoing MMIS programming costs, and enrollment broker costs. One-time funds are also requested for fee-for-service claims runout. Claims Run-Out: Due to the lag in the time between date of service and the date a provider bill for services, the state estimates it will pay \$109 million in fee-for-service (FFS) claims for the population moving to managed care for the period prior to managed care enrollment. The bulk of these costs will be paid within 6 months; however, payouts could continue up to 12 months.

**Section 11.515**

Budget Book Page 437

Provides enhanced physician reimbursement payments for services provided to MO HealthNet participants by hospitals designated as Tier 1 safety net hospitals -- Truman Medical Center Physicians (\$3M) and University of Missouri-Kansas City Physicians (\$5M). Safety net hospitals traditionally see a high volume of Medicaid / uninsured patients. This appropriation was established to provide a funding mechanism to enhance payments to these hospitals.

Budget Book Page 578

This transfer section allows funding to be transferred between from the Intergovernmental Transfer Fund to General Revenue.

Federal Medicaid regulation (42 CFR 433.51) allows state and local governmental units (including public providers) to transfer to the Medicaid agency the non-federal share of Medicaid payments. The amounts transferred are used as the state match to earn federal participation. These transfers are called intergovernmental transfers (IGT's). This funding maximizes eligible state resources for federal Medicaid funds, utilizing current state and local funding sources as match for services.

Federal Medicaid regulation allows state and local governmental units (including public providers) to transfer funds to the state as the non-federal share of Medicaid payments. These transfers are called intergovernmental transfers (IGTs). Under the IGT process, hospitals transfer the non-federal share of payments to the State prior to payments being made. The state pays out the total claimable amount including both federal and non-federal share.

Payments from this program are made to the University of Missouri Hospitals and Clinics, Missouri Rehabilitation Center, Truman Medical Center Hospital - Hill, Truman Medical Center – Lakewood and the Department of Mental Health Hospitals.

An increase is needed in the pharmacy program due to increased utilization and increased cost of specialty drugs. An estimated Specialty PMPM rate increase of 19.275% is expected in FY17. This is due to the higher proportion of persons with disabilities in Medicaid and the fact that there are very few generic options available for specialty drugs. Specialty drugs often target rare conditions, have limited availability and relatively high costs, require complicated regimens, and may involve unconventional manufacturing processes.

Due to a decrease in the blended FMAP rate, there will be a net cost shift from federal funds to GR. There are corresponding federal core reductions. There are also corresponding GR reductions and federal increases in order to realign the match rate within programs. The FY16 blended FMAP rate is 63.323% and the FY17 blended FMAP rate is 63.228%.

These transfer sections allow funding to be transferred between General Revenue and the Federal Reimbursement Allowance Fund. Federal Medicaid regulation requires states to establish they have sufficient state dollars available in order to draw down federal dollars. These transfers allow the state to draw down federal match for funds paid through the FRA Program (hospital services and managed care premiums provided to MO HealthNet clients and the uninsured).

Budget Book Page 539

Provides enhanced payments for long-term care for Title XIX participants. Funds from this core are used to provide enhanced payment rates for improving the quality of patient care using the Nursing Facility Federal Reimbursement Allowance under the Title XIX of the Social Security Act as General Revenue equivalent. Nursing facilities are assessed a provider tax for the privilege of doing business in the state. The assessment is a general revenue equivalent, and when used to make valid Medicaid payments, earns federal dollars. These earnings fund this NFFRA program appropriation.
